

ENGR 213 - Homework Schedule - Spring 2020

Problems from *Mechanics of Materials* 7th Ed. - Beer, Johnston, et. al.

Problem sets must be completed either on engineering paper or using OneNote or similar software. Each problem set must be scanned as a single pdf and uploaded to the appropriate assignment folder on D2L. Each problem must be presented in the formal Given-Find-Solution format. Problems are graded on attempt only and are worth one point each. The due date listed is the final date of acceptance for the assignment. It is recommended that students stay approximately 1 week ahead of the final due dates for best results.
